

2022 YDEKC Policy Agenda by Jurisdiction (Draft prioritization for Summit Survey 10/19/2021)

YDEKC's Overarching Advocacy Goal: We advocate for durable, equitable and sustainable funding for the youth development sector.

Thriving organizations are fully funded to ensure living wage jobs for their employees, sufficient and updated infrastructure (space, technology, and materials), and the full cost of doing business as a not-for-profit. We advocate to ensure a diverse range of youth-serving nonprofits have the infrastructure and resources needed to provide high quality, identity affirming, strengths-based supports for young people.

Draft Overarching Goals for all YDEKC Policy Work 2022-2023:

- Durable, Sustainable Funding Streams that reflect the true cost of doing business as a highly effective non-profit organization serving youth in King County (including new, sustained, and full-cost contracts).
- Addressing staff shortages, workforce needs, licensing, background checks and other sector-wide challenges.
- Improved, more equitable, funded and sustainable partnerships between schools and community-based organizations.
- Work to realize the 2025 declared goal of no youth incarcerated in King County (Zero Youth Detention).

Focused goals of YDEKC 2022-2023 advocacy will be prioritized based on YDEKC's [Quick Criteria Questions & Policy Screen](#)

1. Is it relevant to the mission of YDEKC? (YDEKC connects, strengthens and amplifies the leaders of youth serving organizations so that all Black, Indigenous and youth of color thrive.)
2. Will the policy positively impact children and youth of color?
3. Will it address a clear need or gap in King County?
4. Are there any unintended consequences that are known?
